

The Benefits of Better Health

### Provider Networks

GEHA's network of doctors, hospitals and other health care providers is one of the largest in the nation. When you use in-network providers, you will save money. To ensure that GEHA has in-network providers in all 50 states, we have arrangements with the networks below. The doctors and hospitals participating in these networks have agreed to provide services to GEHA members. Your doctor might be more familiar with their local network's name than with GEHA.
