Things you should know about your plan and dialysis:

- Dialysis is defined as hemodialysis and peritoneal dialysis.
- Up to three outpatient dialysis treatments are covered each week (any combination of hemodialysis and peritoneal dialysis).
- Please visit [geha.com/Elevate-Find-Care](https://geha.com/Elevate-Find-Care) to locate an in-network UnitedHealthcare Choice Plus provider or call our Customer Care department at **800.821.6136** for help.
- We bundle charges for dialysis; labs drawn during the week of dialysis treatments, and drugs and supplies provided on the day of dialysis, are part of the bundled out-of-network dialysis payment.
- Home dialysis training for the member and a helper is covered outside of the bundled out-of-network payment.

In addition to GEHA coverage, you may be eligible for Medicare benefits as well. We encourage you to contact Medicare to make the most informed decision for your future care.

To assist you further, both GEHA and Medicare must have the following information:

First date of dialysis: \_\_\_\_\_

**Please complete this information and fax to GEHA at **816.257.3302** as soon as possible.**

If you have questions, please feel free to contact our Customer Care department at **800.821.6136**.
